NEW YORK:
DAVID WILLIAMS CO.,
232-238 WILLIAM STREET.

THE FOLLOWING Lists are intended for office use or to be cut out and inserted in price books. For this purpose they are printed on only one side of the paper. They have been prepared with a special view to compactness of arrangement and convenience of reference.

The Lists should be closely trimmed before insertion in the price book. In some cases, where the List covers a wider range of goods than the merchant is interested in, its size may be reduced by cutting off the superfluous part.

Information in regard to changes in these Lists will be given in The Iron Age.

232-238 William St.

Extra Wire Gauge Boiler Tubes.

For EXTRA wire gauge "Boiler Tubes," away from standard, not exceeding four wire gauges, add 1 cent for each inch in diameter to the net price per foot for each additional gauge.

Tubes more than four gauges heavier than standard will be charged by the pound, the same as plain end stay tubes, arch pipes, dry pipes and water grates.
